Do you have a talent for design or technology? Pursue your goals ... realize your potential!

Don't miss the **FALL SESSION** starting September 9

Want to launch yourself into a whole new career? Want to develop your skills with training that makes the most of your talents? Dreaming of a career in technology or design? Enroll today in our Fall session, beginning September 9. Evening courses are also available starting September 30.

The International Academy of Design and Technology is the ideal place to wake up and develop your talent, with intensive, college-level, hands-on training.

All our training is designed to give you the marketable skills you'll need for your chosen occupation. Highly qualified working professionals teach our courses in both English and French.

Founded in 1977, in Chicago, the International Academy of Design and Technology has turned out tens of thousands of graduates around the world.

Like them, you can hone your skills, put your ideas into practice and pursue a career with a future. To help you reach your goals, the Academy also offers a financial assistance program and a career orientation service. Enjoy a stimulating academic environment, where you will develop your talent and acquire the skills you need to get ahead!

The Academy will open the door to a career with a future in just 12 months

Our counsellors are available to answer all your questions about our training programs and content, new career opportunities, our financial assistance program, career orientation service ... and much more.

Take the first step toward an exciting, enriching and stimulating career.
